- Student currently enrolled in the medical insurance plan, enrolled as a full-time student at Virginia Tech and actively attending classes for at least the first 31 days after the date when the dental coverage becomes effective.

You must actively attend classes for at least the first 31 days after the date your coverage becomes effective. You cannot meet this eligibility requirement if you take courses through Home study, Correspondence, The internet and Television (TV). Remote online learning due to COVID-19 is eligible. If we find out that you do not meet this eligibility requirement, we are only required to refund any premium contribution minus any claims that we have paid.

Covered students may also enroll their lawful spouse, domestic partner, and dependent children up to the age of 19. Dependent must be currently enrolled in the medical insurance plan in order to be covered under the dental plan.

Who provides the care

Just as the starting point for coverage under your plan is whether the services and supplies are eligible dental services, the foundation for getting covered care is through our network.

This section tells you about Preferred Care and Non-Preferred Care providers.

How your plan works while you are covered for Preferred Care

Your Preferred Care coverage helps you:

- Pay less cost share when you use a Preferred Care provider.

Aetna's network of dental providers

Aetna's network of dental providers is there to give you the care that you need. You can find Preferred Care providers and see important information about them most easily on our online provider directory. Just log into your Aetna secure website at www.aetnastudenthealth.com.

You can choose any dental provider who is in the dental network.

If you can't find a Preferred Care provider for a service or supply that you need, call the Member Services toll-free number on the back of your ID card. We will help you find a Preferred Care provider.

Your plan often will pay a bigger share for eligible dental services that you get through Preferred Care providers, so choose Preferred Care providers as soon as you can.

How your plan works while you are covered for Non-Preferred Care

The section above told you how your plan works while you are covered for Preferred Care. You also have coverage when:

- You want to get your care from providers who are not part of the Aetna network.

You may pay more cost share when you use a Non- Preferred provider.

Your Non-Preferred Care coverage:

- Means you can get care from dental providers who are not part of the Aetna network.
- Means you will have to pay for services at the time that they are provided. You will be required to pay the full charges and submit a claim for reimbursement to us. You are responsible for completing and submitting claim forms for reimbursement of eligible dental services that you paid directly to a dental provider.
- Means you will pay a higher cost share when you use a Non-Preferred Care provider.

Description of Benefits

The Plan excludes coverage for certain services (referred to as exceptions and exclusions in the certificate of coverage) and has limitations on the amounts it will pay. While this Plan Design and Benefit Summary document will tell you about some of the important features of the Plan, other features may be important to you and some may further limit what the Plan will pay. To look at the full Plan description, which is contained in the Certificate of Coverage issued to you, go to www.aetnastudenthealth.com. If any discrepancy exists between this Benefit Summary and the Certificate of Coverage, the Certificate will control.

This Plan will pay benefits in accordance with any applicable Virginia Insurance Law(s).

What rules and limits apply to dental care?

Several rules apply to the dental benefits. Following these rules will help you use your plan to your advantage by avoiding expenses that are not covered by your plan.

Alternate treatment rule

Sometimes there are several ways to treat a dental problem, all of which provide acceptable results.

If a charge is made for a non-eligible dental service or supply and an eligible dental service that would provide an acceptable result, then your plan will pay a benefit for the eligible dental service or supply.

If a charge is made for an eligible dental service but another eligible dental service that would provide an acceptable result is less expensive, the benefit will be for the least expensive eligible dental service.

The benefit will be based on the Preferred Care provider's negotiated charge for the eligible dental service or, in the case of a Non-Preferred Care provider, on the recognized charge.

You should review the differences in the cost of alternate treatment with your dental provider. Of course, you and your dental provider can still choose the more costly treatment method. You are responsible for any charges in excess of what your plan will cover.

Coverage for Dental Work Begun Before The Covered Person is Covered by the Plan

The plan does not cover dental work that began before the covered person was covered by the plan. This means that the following dental work is not covered:

- An appliance, or modification of an appliance, if an impression for it was made before the covered person was covered by the plan;
- A crown, bridge, or cast or processed restoration, if a tooth was prepared for it before the covered person was covered by the plan; or
- Root canal therapy, if the pulp chamber for it was opened before the covered person was covered by the plan.

Reimbursement policies

We have the right to apply Aetna reimbursement policies. Those policies may reduce the negotiated charge or recognized charge. These policies take into account factors such as:

- The duration and complexity of a service
- When multiple procedures are billed at the same time, whether additional overhead is required
- Whether an assistant surgeon is necessary for the service
- If follow up care is included
- Whether other characteristics modify or make a particular service unique
- When a charge includes more than one claim line, whether any services described by a claim line are part of or incidental to the primary service provided and
- The educational level, licensure or length of training of the provider

Aetna reimbursement policies are based on our review of:

- The Centers for Medicare and Medicaid Services' (CMS) National Correct Coding Initiative (NCCI) and other external materials that say what billing and coding practices are and are not appropriate
- Generally accepted standards of dental practice and
- The views of providers and dentists practicing in the relevant clinical areas

We use commercial software to administer some of these policies. Some policies are different for professional services than for facility services.

Replacement rule

Some eligible dental services are subject to your plan's replacement rule. The replacement rule applies to replacements of, or additions to existing:

- Crowns
- Inlays
- Onlays
- Veneers
- Complete dentures
- Removable partial dentures
- Fixed partial dentures (bridges)
- Other prosthetic services

These eligible dental services are covered only when you give us proof that:

- While you were covered by the plan:
 - You had a tooth (or teeth) extracted after the existing denture or bridge was installed.
 - As a result, you need to replace or add teeth to your denture or bridge.
- The present item cannot be made serviceable, and is:
 - A crown installed at least 8 years before its replacement.
 - An inlay, onlay, veneer, complete denture, removable partial denture, fixed partial denture (bridge), or other prosthetic item installed at least 8 years before its replacement.
- While you were covered by the plan:
 - You had a tooth (or teeth) extracted.
 - Your present denture is an immediate temporary one that replaces that tooth (or teeth).
 - A permanent denture is needed, and the temporary denture cannot be used as a permanent denture. Replacement must occur within 12 months from the date that the temporary denture was installed.

Tooth missing but not replaced rule

The first installation of complete dentures, removable partial dentures, fixed partial dentures (bridges), and other prosthetic services will be covered if:

- The dentures, bridges or other prosthetic items are needed to replace one or more natural teeth that were removed while you were covered by the plan. (The extraction of a third molar tooth does not qualify.)
- The tooth that was removed was not an abutment to a removable or fixed partial denture installed during the prior 10 years. Any such appliance or fixed bridge must include the replacement of an extracted tooth or teeth.

Late Entrant Rule

The plan does not cover services and supplies given to a person age 5 or more if that person did not enroll in the plan:

- During the first 31 days the person is eligible for this coverage, or
- During any period of open enrollment agreed to by the Policyholder and Aetna.

This exclusion does not apply to charges incurred:

- After the covered person has been covered by the plan for 12 months or
- As a result of injuries sustained while covered by the plan, or
- For services listed as Visits and X-rays, Visits and Exams, and X-ray and Pathology in the Dental Care Schedule.

Congenital defects treatment rule

For newly born children, dental benefits are provided for medically diagnosed congenital defects and birth abnormalities, including cleft lip, cleft palate or ectodermal dysplasia, to the same extent as other dental conditions.
